K9MCE Club Meeting on Wednesday 2 January

Mark your calendars now and plan on attending this month's meeting of the Macoupin County Amateur Radio Club at 7:00 pm on Wednesday, January 2nd. We meet on the second floor of the Macoupin County Sheriff Department, 215 S. East Street, Carlinville, IL 62626.

Prior to the club meeting the

club has an informal dinner gathering, at the Reno's Pizza in the Carlinville square starting around 5:00 pm.

This month's presentation immediately after the business meeting

After the business meeting, FCC VE testing is offered. Call Lou,

K9LL for an appointment @ 618-977-4658. Be sure to bring a copy of your license, some pencils and a non-programmable calculator.

K9MCE Board members meeting at 6:30 pm.

K9MCE TRY GRIDS HONOR ROLL

Try Grids Certificate Of Achievement

This certificate is awarded to

Your name
Your Call

In recognition of making two way communications using VHF/UHF simplex frequencies with three grid squares.

Signature K9MCE President

Date

Signature K9MCE Award Chairperson

Date

“These club members earned the Try Grids Award and are Honor Roll members.”

Wayne, KC9ZYQ is in EM58 and Dirk, W9OSI is in EM49 and these gentlemen are available for VHF skeds for those working for the Try Grids Award

HONOR ROLL MEMBERS:

Jim Pitchford, N9LQF
Mark Kerhlikar, WD9HBF
Jeff Naville, KC9WZO
Paul Durand, KC9YCP
Ed Kallbrier, KC9QHJ
Bill Ogle, W9FJ
Skip Riba, WS9V
Mark Lewis, KD9EFO
Lou Bartels, KC9YFU (K9LL)
Debbie Ochu, KC9ULA

Dave Reynolds, WA9OEX

Judy Reynolds, KA9ACM

Ron Ochu, KO0Z

The K9MCE Try Grids Award was established two years ago to encourage Macoupin County ARC club members to experience the joys of VHF/UHF communications. Members are encouraged to learn more about VHF/UHF propagation, antennas and coax and to im-

prove their stations. Towards that end the award was created and the goal is to successfully establish two-way VHF/UHF contacts either from your QTH or mobile with amateurs in three grids. More information pertaining to grids can be found at this ARRL webpage: <http://www.arrl.org/grid-squares> QSL cards confirming the Qs need to be presented to the committee and then you, too, will be eligible for this prestigious accolade at a club meeting and to have your call inscribed in the

Macoupin County ARC Mission Statement:

We, the undersigned, being desirous of securing for ourselves the pleasures and benefits of the association of persons commonly interested in Amateur Radio, by promoting civic interest, specific application, social activities and developing individual efficiency, while improving the general interest in amateur radio, do ordain and establish this Constitution and By-Laws of the Macoupin County Amateur Radio Club Inc., a non-profit corporation. We do further agree that in pursuit of these purposes, this organization shall be non-sectarian, non-partisan and that it shall lend neither support or influence to any political party or candidate for office. The Macoupin County Amateur Radio Club, Inc., shall afford all persons, regardless of race or creed an equal opportunity to join, participate, hold office and enjoy in the benefits of this organization and the challenges of amateur radio.

SKYWARN Recognition Day Turns into Activation Day

National Weather Service stations throughout the country were active on HF and VHF frequencies, on Saturday December 1, to recognize amateur radio's contribution in the SKYWARN program.

Hams activated the NWS at Lincoln, IL and St. Louis, MO.

Usually, the month of December is relatively "quiet and uneventful."

TV broadcasters called for rain on Saturday with a marginal risk of thunderstorms with the possibility of isolated severe

thunderstorms.

Around 4 pm, local time, severe thunderstorm warnings started to be issued accompanied by tornado watch and warning boxes. NWS offices in Lincoln, IL and St. Louis shifted from recognition day into SKYWARN net mode as an outbreak of 27 tornadoes peppered central Illinois.

Macoupin county's Classic Cars was struck by an EF1 tornado on Saturday afternoon. An additional three twisters hit Montgomery county. One twister damaged farm property

and the Magnuson hotel near Hwy 108 and I-55 along with Kinney Contractors before doing more damage northeast towards Raymond and onto Taylorville. Another twister did damage to farms near Butler and the other twister tracked just east of Litchfield near the water treatment plant just missing a residential area. Macoupin-Montgomery SKYWARN net was up and gave real-time reports back to the NWS during the event. Kudos to the storm spotters checking in to give weather reports!

Photos on page 8.

Good Times at Club Christmas Party

Wednesday, December 5th has come and gone, but the memories of the club's Christmas party will be with attendees all year long.

The Christmas party was held at Reno's Pizzeria and the banquet was delicious! Everyone had plenty of salad, pasta, chicken, pork and veggies to eat. For dessert, there was Tiramisu and a special cake brought by Mark, WD9HBF to celebrate the homecoming of

the Field Day Traveling Trophy.

Okaw Valley ARC, AD9OV members John King W9KXQ and cxxxxx presented the trophy to club president Mark, KD9EFO. This year, Mr. Murphy wasn't as big a factor and our FD operators put together a successful, winning effort.

Our WWII veteran Bill, W9FJ joined us and so did Wanda Riter. It was great to see them at the party. Both are doing

well.

Reno's back room was very accommodating and it allowed club members to chat and visit. Pictures can be found on pages 6-7.

"Reno's was fantastic! Everyone had plenty of great tasting salad, pasta, chicken, pork and veggies to eat."

Illinois Section Manager: Ron Morgan, AD9I, AD9I@comcast.net

Hombrew Night Plans for K9MCE

As reported in last month's newsletter, the club voted to bring back homebrew night.

Homebrew night does not mean homebrewing liquor, although that could be a welcome addition to a club meeting; rather, it is a reference to the DIY (do-it-yourself) ham radio community.

Homebrew night is sure to be one of the agenda topics for this month's meeting. There was initial conversation of the club awarding categorical prizes for homebrewed/kit in trans-

ceiver category, antenna category and shack accessory category.

A shack accessory could be a keyer, microphone, swr bridge, watt meter, logging program, etc.

Let's see who's interested in forming a committee and working out details and making plans.

West Central Illinois Hamfest Committee To Meet

*"The West
Central Illinois
Hamfest is ARRL
sanctioned and
on the calendar!"*

Wishing to build upon the past few years success of increasing attendance and making our hamfest one that hams will want to make a point of attending, the West Central Illinois Hamfest Committee is making plans to meet. One suggestion is for Sunday, February 10th at 3:00 pm at the Chinese restaurant in Litchfield. It's the same place committee members met last year.

This year's hamfest chairman is

Ken Norris KK9N from the Okaw Valley ARC. Our hamfest was approved by ARRL Central Division Director, Kermit Carlson W9XA which means that the West Central Illinois Hamfest is ARRL sanctioned and already on the ARRL hamfest calendar.

This is beneficial because of the generous ARRL prizes, but it also is a calendar that hamfest vendors look at while planning their yearly calendars. Hope-

fully, our hamfest's growing reputation will influence vendors to make the trek to Carlinville, IL.

The ARCH helicopter is already scheduled for another fly-in and another slate of dynamic presentations is in the planning stages.

Stay tuned!

Upcoming ARES QT Meeting

Macoupin-Montgomery County ARES will meet on Saturday, January 19 at 10 am in the board room of the Macoupin County Sheriff Office complex.

Anyone with an interest in EmCom, Public Service events and Skywarn is invited to attend. ARES membership is not a prerequisite for attendance.

A meeting agenda will be emailed to members in the upcoming week.

Some of the agenda topics include IDEN node, WinLink, ARES Connect and a debriefing of the December 1st central Illinois tornado outbreak.

Typically, meetings last 90 to 120 minutes in duration.

Afterwards, anyone interested in lunch can meet in Carlinville for good food and company.

NWS Storm Spotter Training This Month

Hopefully, the December 1st, central Illinois tornado outbreak is fresh in you mind and you heard for yourself the importance of trained storm

spotting ham radio operators participating in Skywarn to give accurate, timely, ground-truth observations back to the NWS meteorologists. Hams provide a vital link to the NWS with the ultimate goal of saving lives through early warning. Ham radio is one of the facets of the the NWS mission of a creating a "Weather Ready Nation."

Towards this goal, NWS-St. Louis will offer storm spotting classes at Blackburn College Auditorium (Bothwell Hall) on Tuesday, January 22 at 7:00 to

9:00 pm. Anyone with an interest in severe weather and wishing to be involved with the Macoupin-Montgomery County Skywarn program is urged to attend. This class should afford us to meet our new WCM, Warning Coordination Meteorologist Kevin Dietsch.

Kevin was appointed to the WCM position when Jim Krampfer retired last March.

More information and other storm spotting classes can be found on page 14.

Club Website Update

The club website, www.k9mce.org is part of Go Daddy's service for which the club pays a very reasonable, annual fee. Club webmaster, Isaac Pizzo WX9SRV is a very busy individual and he uses an "ancient laptop and software program that does not run on Windows 10. Consequently, Isaac is limited as to when he can update the club website in terms of accessing his computer and time he can devote to making updates.

However, there is good news. Isaac has been experimenting with a web based design program that will allow others to access the website content if that is the direction the club would like to take.

This would give club more latitude to get timely, topical information out to members and the ham radio community.

In addition to a club's newsletter, a club's website is another

indicator of a club's involvement and enthusiasm.

This would make an excellent agenda item for the club's board of directors and a possible club presentation as to the future of our club website.

"A club's website is another indicator of a club's involvement and enthusiasm."

Area 2 Meter SSB Net a Success

The 2 meter SSB net continues to grow in popularity! The net started off with 4 check-ins and now has nine. Besides area ops, Tennessee and Alabama check-in regularly as does Odin, IL!

The net meets on Thursdays at 7:30 pm on 144.200 USB. We use horizontally polarized antennas, but ops with vertical antennas are welcome to check-in. Keep in mind that there's at least a 20 dB loss of signal strength between cross-polarized antennas.

Here's hoping to hear you on the air!

CHRISTMAS PARTY PHOTO ESSAY

December 1, 2018 Tornado Outbreak

Photo by Dirk W9OSI of a classic, supercell thunderstorm. The photo was taken just south of Shipman, IL, looking east towards Litchfield, approximately 25 miles away. A tornado can be seen within the square, red box at the southwest corner of the supercell. The photo below (W9OSI photo) is an enlargement of the area within the square, red box which clearly shows the confirmed tornado on the ground, Saturday, December 1st, approximately 3:45 pm.

Magnuson Grand Hotel, front parking lot tornado damage.

The rear of the Magnuson Grand suffered more extensive tornado damage.

Rear of the Magnuson Grand hotel.

More tornado damage on the west side of the Magnuson.

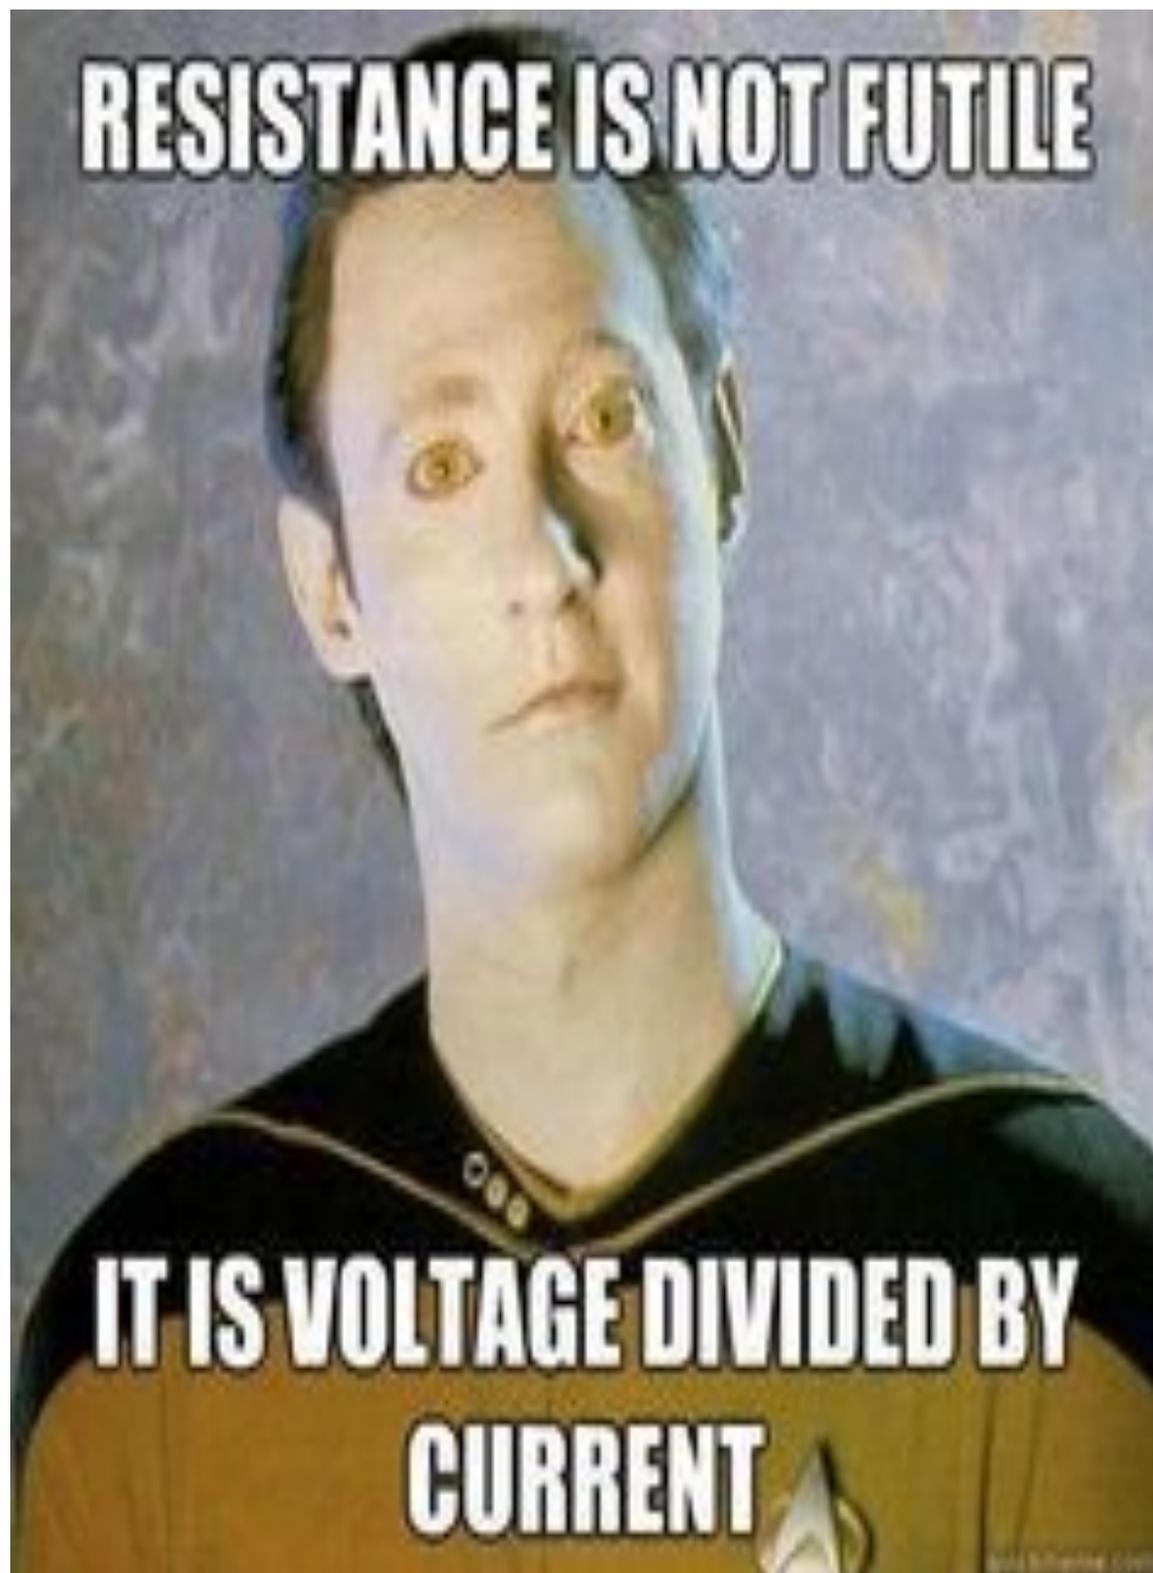

Farm home just west of Raymond, IL with trees down and a destroyed garage. One of three tornadoes in Montgomery County.

Left photo: Damage in Taylorville, IL.

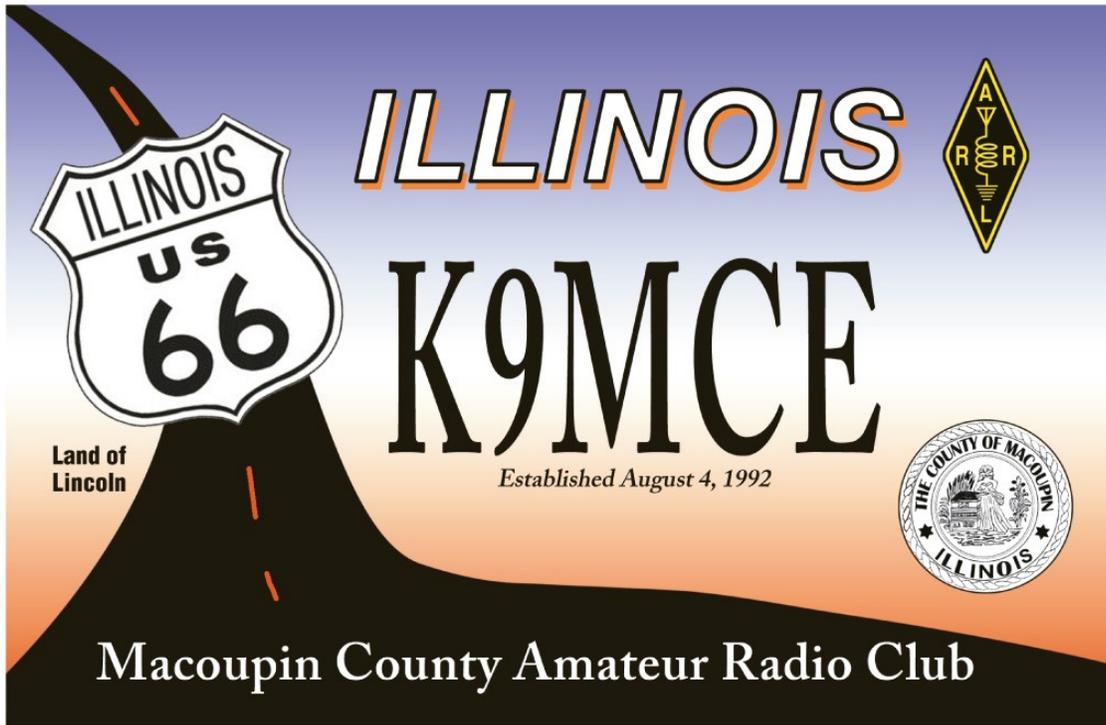

Right Photo: damage to Kinney Contractors along I-55 and IL 108.

K9MCE's New QSL card

Club members authorized the purchase of QSL cards. The club ordered 1000, full-color, high gloss card stock QSL cards from The QSL Shop in Germany. Total cost including shipping to the club is \$120.00
